

CCST EXPERT BRIEFING

CALIFORNIA WILDFIRES: Environmental Impacts of Wildfires in California

Join CCST for a discussion with a team of experts from **CSU Chico**, **Lawrence Berkeley National Lab**, and **Stanford University School of Medicine** who are studying the impacts of wildfires on air and water quality.

Thurs. April 4th
12:30 - 1:30 pm
Capitol Rm. 437

Photo: Camp Fire from Lake Oroville on Nov. 8, 2018 by Ken James / CA Department of Water Resources

- **How** do wildfires lead to increased levels of heavy metal contamination in our air and water?
- **What** are the impacts of wildfire smoke on cardiovascular and immune health?
- **How** do contaminants from wildfire impact drinking water treatments?

Presented in partnership with
**THE CALIFORNIA ENVIRONMENTAL
LEGISLATIVE CAUCUS**

For a free to-go lunch
RSVP by 5pm Tuesday 4/2:
