Subject: Smart Meters Project Comments
Date: January 30, 2011 5:44:29 PM PST
To: <ccst@ccst.us>

I will sent Comments for Smart Meter Project .

From: Mikiko Tokiya
(Research Student: Department of Public Health and Hygiene ,
Faculty of Medicine ,Oita University)

Regarding: Comment on CCST January 2011 Report on Health Impacts of Radio Frequency from Smart Meters.
Date: 1/31/2011

The CCST report does NOT say that Wireless smart meters are safe.

We prepared questionnaire for assessing the adverse effects
on health of electromagnetic waves emitted
from mobile phone base stations.
In pilot study we obtained questionnaire described
by seventy electromagnetic hyper sensitivity,
it was clearly that people had many adverse effects on
health by radio-frequency wave involving electromagnetic waves
emitted from mobile phone base stations.
It is potential radiofrequency pollution.
In Japan smart meter was not commonly,
there was extremely potential radiofrequency pollution.
